

## PUBLIC HEALTH SCHOLARS PROGRAM

As a student at the School of Public Health you will have many opportunities to enhance your academic, professional, and personal development through public health practice and research. The Public Health Scholars Program was developed to recognize students who go above and beyond to make the most of their Aggie experience, including opportunities outside the classroom.

The Public Health Scholars Program awards qualifying graduate and undergraduate students with a bronze, silver, or gold medal for their achievements. The level of medallion awarded is based on total points earned through the student's time at the School of Public Health.
